

# Lifts and escalator upgrades

## Overseas Passenger Terminal, Circular Quay

**June 2026**

Port Authority of NSW is working to upgrade the lifts and escalators within the Overseas Passenger Terminal (OPT) in Circular Quay from **Monday 22 June 2026 until early 2027**, weather permitting.

Work also continues on the Berth Infrastructure Project outside the terminal, in the water alongside the wharf.

### Escalator and lift upgrades within the OPT

We will be carrying out upgrades to the lifts and escalators within the OPT. There will be a period when no escalators will be operational. The OPT will remain accessible via operating lifts.

### Our work hours

We will work within the OPT building typically between **6pm to 6am Monday to Friday**. We may need to carry out some work outside of these hours.

There will be no changes to pedestrian or accessible access to the OPT building. Lifts will continue to be operating.

### Managing our impacts

We thank you for your patience and understanding as we undertake these important works at the OPT.

If you have any questions or concerns, please contact 02 9296 4962 or email [enquiries@portauthoritynsw.com.au](mailto:enquiries@portauthoritynsw.com.au).

Port Authority is committed to minimising disruption to the local community.

- Most work will be carried out inside the terminal building and stay within normal noise limits so nearby residents shouldn't experience unusual disruption.
- Equipment will be switched off when not in operation to minimise noise.
- We have staged this work to ensure minimal impact to users of the OPT by only working on two out of six lifts at a time.

### Berth Infrastructure Project

Port Authority is also improving the berth at the OPT to ensure efficient, safe and reliable berthing for cruise ships to meet current and future cruise vessel demands. You will continue to see this work in the berth outside the OPT building.
